To the Directors of Yad Yehuda,

Thank you for all of the wonderful and most important work that you do for our community. Anyone who is privileged to know what your organization achieves and how it operates can attest to the importance of your work.

The importance of Yad Yehuda is not only the myriad kindnesses, community wide assistance, and the depth of the pain which is so often alleviated. It is the sensitivity and concern with which this is all achieved. The care to maintain the privacy and dignity of all those you assist is most remarkable. It is true *chesed*, not only providing people with their needs, but presenting them with a sense of respect and understanding.

The tireless efforts to continually improve your existing programs, and to expand and provide further resources for those in need, is a testament to the depth of your understand and concern for others. It is an organization where those involved are truly *nosei b'ol im chaveiro*. Yad Yehuda is there because they share personally in the emotional burdens of others.

May Hashem bless all those involved with this wonderful organization with true and meaningful success and blessing in their own lives, and may Hashem grant you all continued strength and the means with which to only continue the crucial work you do for our community.

Sincerely,

Rabbi Yehoshua Singer
